Historic Treasure

The state park was once native land of the Seneca Indians. In the mid 1800's it was the work of William Pryor Letchworth who purchased 1,000 acres that make up the now 14,350 acre park and preserved this national treasure for generations to come by deeding it over to the State of New York in 1907. Mr. Letchworth valued hard work and charity. He sought to focus his efforts later in life towards preservation and felt compelled to repay society for his financial success. It was the Seneca Indians who honored Letchworth by calling him Hai-wa-ye-is-tah, "he who does the right thing." It was Letchworth who worked relentlessly to preserve the Native American history of the Genesee Valley. His work included the creation of the "Council Grounds," Mary Jemison memorial and the preservation of the ancient Seneca Council House and the Gardeau cabin.

go for the history!

Castile, NY is home to a "Spirit of the American Doughboy" statue, one of dozens cast in the 1920s to pay homage to American World War I veterans. The Castile statue, cast by sculptor Ernest M. Visquey and dedicated in 1926, is one of three left in the state of New York and one of about only 130 left in the United States. Recently renovated, the statue looks over downtown Castile and serves as a memorial to the soldiers, and sailors who served in the conflict of WWI. Visitors are encouraged to visit the statue and remember the rich history of our area.

Wyoming County has a rich Seneca Indian history, most notably the story of the "White Woman of the Genesee" Mary Jemison. At the age of 15, during the French and Indian War, Mary and her family were captured by a raiding party of French soldiers and Shawnee warriors. While the rest of her family was killed, Mary was sold to a Seneca Indian tribe. The Seneca's adopted the young white girl, gave her a Native American name and Mary grew up in their culture. She eventually married and moved, with her family, to Seneca Indian land beside the Genesee River in present-day Letchworth State Park. Visitors to the park can visit Mary to this day, as a statue of the woman marks her gravesite on the grounds of the park.

Have you ever seen the Silver Lake Sea Serpent? A local legend around Silver Lake, the story of the Sea Serpent dates back to the summer of 1885, when boaters reported seeing a greenish creature about 20 feet long swimming in the lake. Reports of the "serpent" sparked a fire-storm and soon people from all over the world were flocking to Silver Lake to try and catch a glimpse. But, was this all one big hoax? Two years later, after a fire in the Walker House Hotel on Silver Lake, a burnt-out pile of coiled wire and green-ish canvas was found. While A.B. Walker, owner of the hotel, confirmed that he had built the serpent to drum up business at the hotel, many still believe that the serpent exists. Plan your trip to Silver Lake today and have a look for yourself!

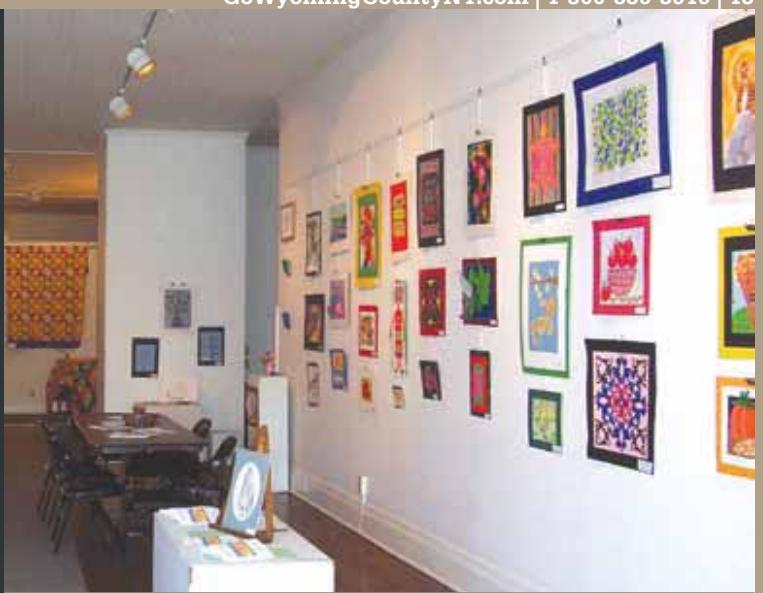

Unique landmarks are commonplace within Wyoming County. The area's historic towns and villages are a treasure trove of sights for those seeking historical information about the county. One such place is Attica State Prison, one of the oldest operating correctional facilities in New York. Constructed in the 1930's, Attica State Prison was home to one of the most infamous uprisings of the 1970's. The maximum security prison gained national media attention for the riot in 1971. Because of this event, many pop references include the Attica riots. Well-known celebrities such as John Travolta, Samuel L. Jackson and John Lennon made note of Attica in their professional works.
